

LESSONS - MASTERCLASSES - IMPROVISATION JAMS - ASSEMBLIES

I offer classes and individual lessons to all ages, all levels, and all instruments. From flute fundamentals like like scales, long tones, breathing, and posture, to beatbox improvisation jams and extended techniques, I deliver a unique take on music education and inspiration. Shifting effortlessly between authentic classical music ideals and modern approaches to jamming and improvisation, my classes are uplifting, enlightening, and accessible to musicians of any skill level.

One of my favorite ways to explore beatboxing on the flute is with group lessons (3-6 people). We explore together the differences in sound production from both classical and non-classical perspectives, learn the basic beatbox sounds and how to do them on the flute, and make up original music for each class based on the students ideas. Students walk away with the tools to create their own music, using a modern and exciting approach, and giving them the opportunity to make music in a way that fits their own individual interests.
